## **SOLUTIONS MANUAL**

## **SOLUTIONS MANUAL**

## CHAPTER 2 ANALYZING TRANSACTIONS

#### **EYE OPENERS**

- An account is a form designed to record changes in a particular asset, liability, owner's equity, revenue, or expense. A ledger is a group of related accounts.
- 2. The terms *debit* and *credit* may signify either an increase or decrease, depending upon the nature of the account. For example, debits signify an increase in asset and expense accounts but a decrease in liability, owner's capital, and revenue accounts.
- 3. Liabilities and owner's equity both have rights or claims to assets as indicated by the accounting equation, Assets = Liabilities + Owner's Equity. Therefore, the same rules of debit and credit apply to both liabilities and owner's equity.
- 4. a. Decrease in owner's equity
  - b. Increase in expense
- 5. a. Increase in owner's equity
  - **b.** Increase in revenue
- 6. a. Assuming no errors have occurred, the credit balance in the cash account resulted from drawing checks for \$1,250 in excess of the amount of cash on deposit.
  - **b.** The \$1,250 credit balance in the cash account as of March 31 is a liability owed to the bank. It is usually referred to as an "overdraft" and should be classified on the balance sheet as a liability.
- **7. a.** The revenue was earned in July.
  - b. (1) Debit Accounts Receivable and credit Fees Earned or another appropriately titled revenue account in July.
    - (2) Debit Cash and credit Accounts Receivable in August.
- **8.** The trial balance is a proof of the equality of the debits and the credits in the ledger.
- 9. No. Errors may have been made that had the same erroneous effect on both debits and credits, such as failure to record and/or post a transaction, recording the same transaction more than once, and posting a transaction correctly but to the wrong account.

- **10.** The listing of \$1,850 is a slide; the listing of \$3,860 is a transposition.
- **11. a.** No. Because the same error occurred on both the debit side and the credit side of the trial balance, the trial balance would not be out of balance.
  - **b.** Yes. The trial balance would not balance. The error would cause the debit total of the trial balance to exceed the credit total by \$90.
- **12. a.** The equality of the trial balance would not be affected.
  - b. On the income statement, total operating expenses (salary expense) would be overstated by \$10,000, and net income would be understated by \$10,000. On the statement of owner's equity, the beginning and ending capital would be correct. However, net income and withdrawals would be understated by \$10,000. These understatements offset one another, and, thus, ending owner's equity is correct. The balance sheet is not affected by the error.
- **13. a.** The equality of the trial balance would not be affected.
  - b. On the income statement, revenues (fees earned) would be overstated by \$120,000, and net income would be overstated by \$120,000. On the statement of owner's equity, the beginning capital would be correct. However, net income and ending capital would be overstated by \$120,000. The balance sheet total assets is correct. However, liabilities (notes payable) is understated by \$120,000, and owner's equity is overstated by \$120,000. The understatement of liabilities is offset by the overstatement of owner's equity, and, thus, total liabilities and owner's equity is correct.
- **14.** The preferred procedure is to journalize and post a correcting entry debiting Accounts Payable and crediting Cash.

- **15. a.** From the viewpoint of Yellowstone Storage, the balance of the checking account represents an asset.
- **b.** From the viewpoint of Livingston Savings Bank, the balance of the checking account represents a liability.

#### PRACTICE EXERCISES

#### PE 2-1A

- 1. Debit and credit entries, Normal credit balance
- 2. Debit and credit entries, Normal debit balance
- 3. Debit entries only, Normal debit balance
- 4. Debit entries only, Normal debit balance
- 5. Debit and credit entries, Normal debit balance
- 6. Credit entries only, Normal credit balance

#### PE 2-1B

- 1. Debit and credit entries, Normal debit balance
- 2. Credit entries only, Normal credit balance
- 3. Debit and credit entries, Normal credit balance
- 4. Credit entries only, Normal credit balance
- 5. Debit and credit entries, Normal credit balance
- 6. Debit entries only, Normal debit balance

#### PE 2-2A

| Jan. 19 | Carla Hammond, Drawing Cash     | 8,500  | 8,500  |
| PE 2–4B |                                 |        |        |
| Dec. 23 | Matt Nehls, Drawing Cash        | 6,000  | 6,000  |

#### PE 2-5A

Using the following T account, solve for the amount of supplies expense (indicated by ? below).

| Supplies      |              |   |                  |  |
|---------------|--------------|---|------------------|--|
| July 1 Bal.   | 1,950        | ? | Supplies expense |  |
| Cash receipts | <u>6,750</u> |   |                  |  |
| July 31 Bal.  | 1,851        |   |                  |  |
|               |              |   |                  |  |

\$1,851 = \$1,950 + \$6,750 - Supplies expense

Supplies expense = \$1,950 + \$6,750 - \$1,851 = \$6,849

#### PE 2-5B

Using the following T account, solve for the amount of cash receipts (indicated by ? below).

| Cash          |        |         |               |
|---------------|--------|---------|---------------|
| Oct. 1 Bal.   | 23,600 | 315,700 | Cash payments |
| Cash receipts | ?      |         |               |
| Oct. 31 Bal.  | 36,900 |         |               |
|               |        |         |               |

\$36,900 = \$23,600 + Cash receipts - \$315,700 Cash receipts = \$36,900 + \$315,700 - \$23,600 = \$329,000

#### PE 2-6A

- a. The totals are equal since both the debit and credit entries were journalized and posted for \$8,000.
- b. The totals are unequal. The credit total is higher by \$6,075 (\$6,750 \$675).
- c. The totals are unequal. The debit total is higher by \$360 (\$4,510 \$4,150).

#### PE 2-6B

- a. The totals are unequal. The debit total is higher by \$2,700 (\$6,300 \$3,600).
- b. The totals are equal since both the debit and credit entries were journalized and posted for \$752.
- c. The totals are unequal. The debit total is higher by \$1,800 (\$900 + \$900).

#### PE 2-7A

| a. | Cash                | 6,480 |       |
|----|---------------------|-------|-------|
|    | Accounts Receivable |       | 6,480 |
| b. | Supplies            | 1,960 |       |
|    | Office Equipment    |       | 1,960 |
|    | Supplies            | 1,960 |       |
|    | Accounts Payable    |       | 1,960 |

*Note:* The first entry in (b) reverses the incorrect entry, and the second entry records the correct entry. These two entries could also be combined into one entry as shown below; however, preparing two entries would make it easier for someone to understand later what happened and why the entries were necessary.

|    | Supplies                                  | 3,920 |       |
|----|---|-------|-------|
|    | Office Equipment                          |       | 1,960 |
|    | Accounts Payable                          |       | 1,960 |
|    |   |       |       |
| PE | 2–7B                                      |       |       |
| a. | Advertising Expense Miscellaneous Expense | 950   | 950   |
|    | Advertising Expense                       | 950   |       |

Note: The first entry in (a) reverses the incorrect entry, and the second entry records the correct entry. These two entries could also be combined into one entry as shown below; however, preparing two entries would make it easier for someone to understand later what happened and why the entries were necessary.

950

|    | Advertising Expense Miscellaneous Expense Cash | 1,900 | 950<br>950 |
|----|--|-------|------------|
| b. | Accounts PayableAccounts Receivable            | 1,500 | 1,500      |

#### Ex. 2-17

Inequality of trial balance totals would be caused by errors described in (a) and (e). For (a), the debit total would exceed the credit total by 4,300 (2,150 + 2,150). For (e), the debit total would exceed the credit total by 10,000 (15,000 - 5,000).

Ex. 2-18

## Ex. 2-19

| Error | (a)<br>Out of Balance | (b)<br>Difference | (c)<br>Larger Total |
|-------|-----------------------|-------------------|---------------------|
| 1.    | yes                   | \$6,150           | debit               |
| 2.    | no                    | _                 | <del>_</del>        |
| 3.    | yes                   | 450               | credit              |
| 4.    | yes                   | 270               | credit              |
| 5.    | no                    | _                 | <del>-</del>        |
| 6.    | yes                   | 1,800             | credit              |
| 7.    | yes                   | 1,150             | debit               |

- 1. The debit column total is added incorrectly. The sum is \$1,167,000, rather than \$1,833,000.
- 2. The trial balance should be dated "March 31, 2010," not "For the month ending March 31, 2010."
- 3. The Accounts Receivable balance should be in the debit column.
- 4. The Accounts Payable balance should be in the credit column.
- 5. The Estelle Chatman, Drawing, balance should be in the debit column.
- 6. The Advertising Expense balance should be in the debit column.

A corrected trial balance would be as follows:

#### BURGOO CO. Unadjusted Trial Balance March 31, 2010

|    | Cash                |       | 1,500 |

#### Ex. 2-23

- a. 1. Net sales: \$189 million increase (\$3,728 \$3,539) 5.3% increase (\$189 ÷ \$3,539)
  - 2. Total operating

expenses: \$206 million increase (\$3,400 – \$3,194) 6.4% increase (\$206 ÷ \$3,194)

b. During 2007, the percentage increase in total operating expenses (6.4%) is more than the percentage increase in net sales (5.3%), an unfavorable trend.

a.

# KMART CORPORATION Income Statement For the Years Ended January 31, 2000 and 1999 (in millions)

|    |   |                 |                 | Increase          | (Decrease) |
|----|---|-----------------|-----------------|-------------------|------------|
|    |   | 2000            | 1999            | <u>Amount</u>     | Percent    |
| 1. | Sales   | \$ 37,028       | \$ 35,925       | \$ 1,103          | 3.1%       |
| 2. | Cost of sales                                 | (29,658)        | (28,111)        | 1,547             | 5.5%       |
| 3. | Selling, general, and administrative expenses | <u>(7,415</u> ) | <u>(6,514</u> ) | 901               | 13.8%      |
| 4. | Operating income (loss) before taxes          | <u>\$ (45</u> ) | <u>\$ 1,300</u> | <u>\$(1,345</u> ) | (103.5)%   |

b. The horizontal analysis of Kmart Corporation reveals deteriorating operating results from 1999 to 2000. While sales increased by \$1,103 million, a 3.1% increase, cost of sales increased by \$1,547 million, a 5.5% increase. Selling, general, and administrative expenses also increased by \$901 million, a 13.8% increase. The end result was that operating income decreased by \$1,345 million, over a 100% decrease, and created a \$45 million loss in 2000. Little over a year later, Kmart filed for bankruptcy protection. It has now emerged from bankruptcy and was merged into Sears to form the company Sears Holding Corporation.

## SPECIAL ACTIVITIES

## SA 2-1

Acceptable ethical conduct requires that Hannah look for the difference. If Hannah cannot find the difference within a reasonable amount of time, she should confer with her supervisor as to what action should be taken so that the financial statements can be prepared by the 5 o'clock deadline. Hannah's responsibility to her employer is to act with integrity, objectivity, and due care, so that users of the financial statements will not be misled.

### SA 2-2

The following general journal entry should be used to record the receipt of tuition payments received in advance of classes:

| Cash                      | XXXX |      |
|---------------------------|------|------|
| Unearned Tuition Deposits |      | XXXX |

Cash is an asset account, and Unearned Tuition Deposits is a liability account. As the classes are taught throughout the term, the unearned tuition deposits become earned revenue.

#### SA 2-3

The journal is called the book of original entry. It provides a time-ordered history of the transactions that have occurred for the firm. This time-ordered history is very important because it allows one to trace ledger account balances back to the original transactions that created those balances. This is called an "audit trail." If the firm recorded transactions by posting ledgers directly, it would be nearly impossible to reconstruct actual transactions. The debits and credits would all be separated and accumulated into the ledger balances. Once the transactions become part of the ledger balances, the original transactions would be lost. That is, there would be no audit trail, and any errors that might occur in recording transactions would be almost impossible to trace. Thus, firms first record transaction debits and credits in a journal. These transactions are then posted to the ledger to update the account balances. The journal and ledger are linked using posting references. This allows an analyst to trace the transaction flow forward or backward, depending on the need.

#### **SA 2-4**

1. The rules of debit and credit must be memorized. Loyd is correct in that the rules of debit and credit could be reversed as long as everyone accepted and abided by the rules. However, the important point is that everyone accepts the rules as the way in which transactions should be recorded. This generates uniformity across the accounting profession and reduces errors and confusion. Since the current rules of debit and credit have been used for centuries, Loyd should adapt to the current rules of debit and credit, rather than devise his own.

The primary reason that all accounts do not have the same rules for increases and decreases is for control of the recording process. The double-entry accounting system, which includes both (1) the rules of debit and credit and (2) the accounting equation, guarantees that (1) debits always equals credits and (2) assets always equals liabilities plus owner's equity. If all increases in the account were recorded by debits, then the control that debits always equals credits would be removed. In addition, the control that the normal balance of assets is a debit would also be removed. The accounting equation would still hold, but the control over recording transactions would be weakened.

Loyd is correct that we could call the left and right sides of an account different terms, such as "LE" or "RE." Again, centuries of tradition dictate the current terminology used. One might note, however, that in Latin, *debere* (debit) means left and *credere* (credit) means right.

2. The accounting system may be designed to capture information about the buying habits of various customers or vendors, such as the quantity normally ordered, average amount ordered, number of returns, etc. Thus, in a sense, there can be other "sides" of (information about) a transaction that are recorded by the accounting system. Such information would be viewed as supplemental to the basic double-entry accounting system.

### SA 2-5

Palanca Chaot Accounts

a. Although the titles and numbers of accounts may differ, depending on how expenses are classified, the following accounts would be adequate for recording transaction data for Ace Caddy Service:

|        | Balanc   | e Sheet Accounts       | Income  | Statement Accou          | unts           |

Note to Instructors: Students may have prepared slightly different income statements, depending upon the titles of the major expense classifications chosen. Regardless of the classification of expenses, however, the total sales, total expenses, and net income should be as presented above.

T accounts are not required for the preparation of the income statement of Ace Caddy Service. The following presentation illustrates one solution using T accounts. Alternative solutions are possible if students used different accounts. In presenting the following T account solution, instructors may wish to emphasize the advantages of using T accounts (or a journal and four-column accounts) when a large number of transactions must be recorded.

## SA 2-5 Concluded

c. \$3,710, computed in the following manner:

| Cash receipts:                       |             |                  |
|--------------------------------------|-------------|------------------|
| Initial investment                   | \$2,500     |                  |
| Cash sales                           | 5,000       |                  |
| Collections on accounts              | <u>800</u>  |                  |
| Total cash receipts during June      |             | \$8,300          |
| Cash disbursements:                  |             |                  |
| Rent expense                         | \$2,600     |                  |
| Supplies purchased for cash          | 750         |                  |
| Wages expense                        | 450         |                  |
| Payment for supplies on account      | 500         |                  |
| Utilities expense                    | 140         |                  |
| Miscellaneous expense                | <u> 150</u> |                  |
| Total cash disbursements during June |             | <u>4,590</u>     |
| Cash on hand according to records    |             | <u>\$3,710</u> * |

<sup>\*</sup>If the student used T accounts in completing part (b), or this part, this amount (\$3,710) should agree with the balance of the cash account.

d. The difference of \$110 between the cash on hand according to records (\$3,710) and the cash on hand according to the count (\$3,600) could be due to many factors, including errors in the record keeping and withdrawals made by Cody.

## SA 2-6

Note to Instructors: The purpose of this activity is to familiarize students with the job opportunities available in accounting or in fields that require (or prefer) the employee to have some knowledge of accounting.
