

TEST BANK

MULTIPLE CHOICE. Choose the one alternative that best completes the statement or answers the question.

- 1) What is the name of the organization created in 1970 to promote safe working conditions? 1) _____
A) RCRA B) MSDS C) OSHA D) EPA
- 2) What term best describes a liquid with a flash point below 140 deg F? 2) _____
A) Ignitable B) Toxic C) Corrosive D) Radioactive
- 3) What law says employers must provide information about hazardous materials used in the work place? 3) _____
A) Right to know B) EPA C) RCRA D) OSHA
- 4) The Clean Air Act, Title VI Section 609, applies to which automotive system? 4) _____
A) Air conditioning B) Power steering
C) Brake D) Exhaust
- 5) What posted information contains important safety information about hazardous materials? 5) _____
A) HEPA B) MSDS C) NATEF D) SAE
- 6) What material formerly used in friction linings, may cause lung damage with repeated exposure? 6) _____
A) Ceramic fiber B) Asbestos C) Carbon fiber D) Fiberglass
- 7) What disease has been attributed to asbestos exposure? 7) _____
A) Mesothelioma B) Appendicitis C) Glaucoma D) Influenza
- 8) Technician A says all brakes should be treated as if they contain asbestos. Technician B says a HEPA filtration vacuum is acceptable to clean brake assemblies before service. Which technician is correct? 8) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 9) Technician A says a visual inspection can determine if brake linings contain asbestos. Technician B says it is OK to blow brake dust with compressed air. Which technician is correct? 9) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 10) Technician A says wet asbestos is known as hazardous waste. Technician B says dry asbestos is known as solid waste. Which technician is correct? 10) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 11) Technician A says brake fluid is hazardous after it has been contaminated with metals from the brake system. Technician B says to dispose of used brake fluid in a special container. Which technician is correct? 11) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 12) Technician A says used brake fluid can be poured down the sewage drain. Technician B says brake fluid can be mixed with used engine oil for recycling. Which technician is correct? 12) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician

- 13) Which is NOT a criteria the EPA uses to define used oil? 13) _____
A) Contaminants B) Color C) Origin D) Use
- 14) Which of these is NOT true about used oil? 14) _____
A) It can be used for other purposes
B) It must be stored in an approved container
C) It can be mixed with used antifreeze
D) It can be recycled more than once
- 15) Technician A says major sources of chemical dangers are from solvents containing chlorinated hydrofluorocarbons. Technician B says the EPA banned production of some of these solvents because they have proven harmful to the earth's ozone layer. Which technician is correct? 15) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 16) Technician A says solvents with a flash point below 140 deg F are combustible. Technician B says solvents with a flash point above 140 deg F are flammable. Which technician is correct? 16) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 17) Technician A says solvents currently in use in a parts washer must always be labelled. Technician B says Safety Kleen is a vendor that recycles and disposes of used solvent. Which technician is correct? 17) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 18) Technician A says antifreeze with propylene glycol does not taste as sweet as ethylene glycol. Technician B says HOAT antifreeze may be either orange or green in color. Which technician is correct? 18) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 19) Technician A says lead acid batteries may be disposed of in landfills. Technician B says all automotive battery retailers must post a sign with a recycling symbol visible to customers. Which technician is correct? 19) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 20) Technician A says all metal gasoline containers are considered safety cans. Technician B says all gasoline containers should be red in color. Which technician is correct? 20) _____
A) Technician A B) Technician B
C) Both technicians D) Neither technician
- 21) Which is NOT an acceptable method of disposing used tires? 21) _____
A) Landfill B) Burn in cement kiln
C) Retread D) Shred for use in asphalt
- 22) Hazardous materials include all of the following EXCEPT 22) _____
A) Engine oil B) Water C) Asbestos D) Brake cleaner
- 23) To determine if a product or substance being used is hazardous, consult 23) _____

A) A dictionary B) An MSDS C) EPA guidelines D) SAE standards

- 24) Exposure to asbestos dust can cause what health condition? 24) _____
A) Lung cancer B) Mesothelioma
C) Asbestosis D) All of these are possible
- 25) Wetted asbestos is considered to be 25) _____
A) Poisonous B) Toxic
C) Solid waste D) Hazardous waste
- 26) An oil filter should be hot drained for how long before disposal? 26) _____
A) 4 hours B) 30 to 60 minutes
C) 8 hours D) 12 hours
- 27) Used engine oil should be disposed of by all EXCEPT the following methods 27) _____
A) Burned on-site in a waste oil approved heater
B) Shipped off site for recycling
C) Disposed of in regular trash
D) Burned off-site in a waste oil approved heater
- 28) All of the following are ways to dispose of a drained oil filter EXCEPT 28) _____
A) Disposed of in regular trash
B) Picked up by a service company
C) Sent for recycling
D) Considered to be hazardous waste and disposed of accordingly
- 29) Which is NOT considered to be a hazardous solvent? 29) _____
A) Chlorinated hydrocarbon solvent B) MIBK
C) Tetrachloroethylene D) Non-chlorinated hydrocarbon solvent
- 30) Infections that can be transmitted by the blood are called 30) _____
A) Blood virus B) HIV
C) Blood-borne pathogens D) SARS

- 1) D
- 2) A
- 3) A
- 4) A
- 5) B
- 6) B
- 7) A
- 8) C
- 9) D
- 10) B
- 11) C
- 12) D
- 13) B
- 14) C
- 15) C
- 16) D
- 17) B
- 18) C
- 19) A
- 20) B
- 21) A
- 22) B
- 23) B
- 24) D
- 25) C
- 26) D
- 27) C
- 28) D
- 29) D
- 30) C
