TEST BANK

Chapter 2 THEORIES OF PERSONALITY

LEARNING OBJECTIVES and Item Numbers

	LEARNING OBJECTIVES	Item Number
Wh	at is Personality?	1, 2, 3, 4, 5, 6, 7, 8, 9,
1.	Explain the concepts of personality and traits, and describe the	10, TF1, SA1
	five-factor model of personality.	
Psy	chodynamic Perspectives	11, 12, 13, 14, 15, 16,
2.	Outline Freud's theory of personality and psychosexual	17, 18, 19, 20, 21, 22,
	development.	23, 24, 25, 26, 27, 28,
		29, 30, 31, 32, 33, 34,
		TF2, TF3, SA2, SA3
Behavioral Perspectives		35, 36, 37, 38, 39, 40,
3.	Understand how classical conditioning, operant conditioning,	41, 42, 43, 44, 45, 46,
	and observational learning help shape personality.	47, 48, 49, 50, 51, TF4,
		TF5, SA4, SA5
Humanistic Perspectives		52, 53, 54, 55, 56, 57,
4.	Describe Rogers's views on self-concept development and	58, 59, 60, 61, 62, 63,
	Maslow's hierarchy of needs.	64, 65, 66, 67, TF6, TF7,
		SA6, SA7
Biological Perspectives		68, 69, 70, 71, 72, 73,
5.	Discuss the genetic and evolutionary roots of personality.	74, 75, 76, 77, 78, 79,
		80, 81, TF8, SA8
Cul	ture and Personality	82, 83, 84, 85, 86, 87,
6.	Explain how researchers have found both cross-cultural	88, 89, 90, TF9, SA9
	similarities and differences in personality.	
App	olication: Assessing Your Personality	91, 92, 93, 94, 95, 96,
7.	Describe the nature, value, and limitations of personality tests.	97, 98, 99, 100, TF10,
	- · ·	SA10

Key: Multiple-Choice question numbers appear first, followed by True/False (TF) and Short Answer (SA).

MULTIPLE CHOICE

1.	What is the core concept of pera. Being true to oneselfb. Traits shared with othersc. Consistency across situationd. Being able to adjust to diffe	18
ANS: c OBJ: 1		DIF: Easy
2.	refers to the combination individual. a. Constellation b. Personality c. Dependability d. Creativity	ns of consistent behavioral traits that are unique to each
ANS: b		DIF: Easy
3.	Like consistency across situation a. Cognition b. Personality c. Consistency d. Distinctiveness	ons, is also a central feature of personality.
ANS: d OBJ: 1		DIF: Easy
4.	"Honest," "dependable," and "a. personality theories. b. personality traits. c. personality tests. d. social situations.	friendly" are all adjectives that can be used to represent
ANS: b		DIF: Moderate
5.	Freda's friends say that she is a the following "Big Five" traits a. Neuroticism b. Extraversion c. Agreeableness d. Conscientiousness	anxious, self-conscious, insecure, and vulnerable. Which of would best describe her?
ANS: a OBJ: 1	REF: 22 KEY: Conceptual	DIF: Moderate

- 6. Eric studies three hours per day, five days a week. He only misses school when he is sick and is almost never late for class. On which of the following "Big Five" traits would he likely receive a high score?
 - a. Neuroticism
 - b. Extraversion
 - c. Openness to experience
 - d. Conscientiousness

ANS: d REF: 22

OBJ: 1 KEY: Conceptual DIF: Moderate

- 7. Margaret is able to get along with most people. She is creative and likes variety. On which of the following "Big Five" traits would she likely receive a high score?
 - a. Neuroticism
 - b. Extraversion
 - c. Openness to experience
 - d. Conscientiousness

ANS: c REF: 22

OBJ: 1 KEY: Conceptual DIF: Moderate

- 8. Which of the following are "Big Five" traits?
 - a. Neuroticism and obsessiveness
 - b. Openness to experience and intelligence
 - c. Neuroticism and agreeableness
 - d. Neuroticism, openness to experience, and fortitude

ANS: c REF: 22

OBJ: 1 KEY: Factual DIF: Moderate

- 9. Achieving occupational goals is positively predicted by
 - a. conscientiousness.
 - b. extraversion.
 - c. neuroticism.
 - d. agreeableness.

ANS: a REF: 22

OBJ: 1 KEY: Factual DIF: Difficult

- 10. Which of the following statements is NOT true according to Big Five research?
 - a. Neuroticism increases the probability of divorce.
 - b. Conscientiousness is correlated with more illness.
 - c. Agreeableness reduces the probability of divorce.
 - d. Neuroticism is a positive predictor of mental disorders.

ANS: b REF: 22

OBJ: 1 KEY: Factual DIF: Moderate

- 11. All psychodynamic theories stem from the work of
 - a. Jung.
 - b. Adler.
 - c. Freud.
 - d. Rogers.

ANS: c REF: 23

OBJ: 2 KEY: Factual DIF: Easy

- 12. Jung and Adler were two significant followers of
 - a. Rogers.
 - b. Freud.
 - c. Skinner.
 - d. All of these theorists.

ANS: b REF: 23

OBJ: 2 KEY: Factual DIF: Easy

- 13. All of the following are true about Sigmund Freud EXCEPT:
 - a. He began his medical practice in the late 1800s.
 - b. The process he developed was called psychoanalysis.
 - c. He was a neurologist.
 - d. His emphasis on unconscious forces and behavior was readily accepted.

ANS: d REF: 23

OBJ: 2 KEY: Conceptual DIF: Difficult

- 14. The component of personality, according to Freud, that focuses on biological urges is the
 - a. id.
 - b. ego.
 - c. superego.
 - d. superid.

ANS: a REF: 23

OBJ: 2 KEY: Factual DIF: Easy

- 15. Social norms, rules, and customs are considerations of the
 - a. id.
 - b. ego.
 - c. superego.
 - d. superid.

ANS: b REF: 23

OBJ: 2 KEY: Factual DIF: Moderate

16.	moral standards. a. id; ego b. superego; id c. ego; superego d. ego; libido	Tocuses on practical realities and the focuses on
ANS: c OBJ: 2		DIF: Moderate
	Which of the following is NOT a. Conscious b. Preconscious c. Collective conscious d. Unconscious	one of Freud's levels of awareness?
ANS: c OBJ: 2		DIF: Moderate
	Dick was asked what he ate yes Freud's awareness level of the a. preconscious. b. conscious. c. unconscious. d. id.	terday for breakfast. Recalling his meal is an example of
ANS: a OBJ: 2		DIF: Moderate
19.	According to Freud, thoughts and memories that are well below the level of conscious awareness are a. a great influence on one's behavior. b. in the unconscious. c. difficult to retrieve. d. all of these.	
ANS: d OBJ: 2	REF: 24 KEY: Factual	DIF: Moderate
20.	The effort to decrease anxiety o a. superego. b. aggressive consequences. c. defense mechanisms. d. sexual arousal.	ften involves Freud's concept of
ANS: c OBJ: 2	REF: 25 KEY: Factual	DIF: Easy

- 21. You're feeling guilty after your third bowl of ice cream. You tell yourself it's alright because yesterday you skipped lunch. This is an example of
 - a. conceptualization.
 - b. rationalization.
 - c. displacement.
 - d. identification.

ANS: b REF: 25

OBJ: 2 KEY: Conceptual DIF: Easy

- 22. Jack keeps forgetting the name of his ex-wife's boyfriend. According to Freud, which defense mechanism is at work in this example?
 - a. Projection
 - b. Reaction formation
 - c. Regression
 - d. Repression

ANS: d REF: 25

OBJ: 2 KEY: Conceptual DIF: Moderate

- 23. Jane has been describing her cousin as needing a lot of attention. Jane's cousin says the same about Jane. This is an example of which defense mechanism?
 - a. Regression
 - b. Displacement
 - c. Projection
 - d. Reaction formation

ANS: c REF: 26

OBJ: 2 KEY: Conceptual DIF: Moderate

- 24. Marybeth has been tracking all the likes on her favorite singer's social media. She is sure that she has a great deal in common with her idol and that they are already friends. This illustrates which defense mechanism?
 - a. Regression
 - b. Displacement
 - c. Projection
 - d. Identification

ANS: d REF: 26

OBJ: 2 KEY: Conceptual DIF: Moderate

- 25. In psychoanalytic theory, failure to move forward from one developmental stage to another when expected is called
 - a. extinction.
 - b. regression.
 - c. inertia.
 - d. fixation.

ANS: d REF: 26

OBJ: 2 KEY: Factual DIF: Easy

26.	According to Freud, Margi development. a. anal b. latency c. oral d. phallic	e's newborn baby is in the	stage of psychosexua
ANS: c OBJ: 2	•	DIF: Easy	
27.	According to Freud, in orderesolves the dilemma of the a. strict parents that dispel b. getting older. c. having sexual longings d. identifying with the same	the myth. of the other-sex parent.	nt, a child in the phallic stage
		o son purono	
ANS: d OBJ: 2		DIF: Difficult	
28.	a. Sexual urges reappear.b. The child reaches pube	eled toward peers rather than one	
ANS: d OBJ: 2		DIF: Difficult	
29.	called his psychodyra. Freud b. Jung c. Rogers d. Adler	namic approach "analytical psych	nology."
ANS: b	REF: 27		
OBJ: 2	KEY: Factual	DIF: Easy	
30.	Carl Jung proposed that the	e unconscious consists of two lay	ers, the and the
	a. preconscious; subconsci b. personal unconscious; c c. personal unconscious; u d. individual archetype; co	ollective unconscious niversal preconscious	
ANS: b	REF: 27		
OBJ: 2	KEY: Factual	DIF: Moderate	

- 31. Jung called ancestral memories that are emotionally charged images and thought forms with universal meaning
 - a. archetypes.
 - b. memory traces.
 - c. religious icons.
 - d. complexes.

ANS: a REF: 27

OBJ: 2 KEY: Factual DIF: Easy

- 32. ____ called his psychodynamic perspective individual psychology.
 - a. Freud
 - b. Jung
 - c. Adler
 - d. Rogers

ANS: c REF: 28

OBJ: 2 KEY: Factual DIF: Moderate

- 33. According to Adler, everyone has to compensate for feelings of
 - a. neuroticism.
 - b. inferiority.
 - c. reaction formation.
 - d. self-deception.

ANS: b REF: 28

OBJ: 2 KEY: Factual DIF: Easy

- 34. Which of the following is NOT a criticism of psychodynamic theories?
 - a. Vague concepts
 - b. No empirical evidence
 - c. Male-centered view
 - d. Terms that are difficult to measure

ANS: b REF: 28

OBJ: 2 KEY: Conceptual DIF: Difficult

- 35. Which of the following is true of behaviorism?
 - a. It is based on the study of observable behavior.
 - b. It began in 1913 with an article by Watson.
 - c. It rejected the study of mental processes.
 - d. All of these are true.

ANS: d REF: 28

OBJ: 3 KEY: Factual DIF: Moderate

36.	Classical conditioning pairs a a. neutral b. reinforcement c. primary d. UCS	stimulus with another stimulus.
ANS: a OBJ: 3		DIF: Easy
37.	Which of the following is NO a. It was first described in the b. It was based on a study aboc. It engages voluntary respond. It demonstrates learned ref	out dogs' digestion. nses.
ANS: c OBJ: 3		DIF: Difficult
38.	Behaviorists focus on persona a. structure. b. traits. c. development. d. disorders.	lity
ANS: c OBJ: 3		DIF: Difficult
39.		food can opening, he pants and drools, seemingly eager for s is an example of the sound of the can opener as
ANS: b OBJ: 3	REF: 29 KEY: Conceptual	DIF: Moderate
40.	In classical conditioning, the na. CS b. UCS c. CR d. UCR	neutral stimulus becomes the after conditioning.
ANS: a OBJ: 3	REF: 30 KEY: Factual	DIF: Easy

- 41. Little Elmo is making faces at his mother. Her smiles back to him are an example of
 - a. positive reinforcement.
 - b. negative reinforcement.
 - c. punishment.
 - d. extinction.

ANS: a REF: 32

OBJ: 3 KEY: Conceptual DIF: Moderate

- 42. Little Elmo is making faces at his mother. When Elmo sticks out his tongue, she frowns. Elmo stops sticking out his tongue. Her frowns are an example of
 - a. negative reinforcement.
 - b. punishment.
 - c. positive reinforcement.
 - d. extinction.

ANS: b REF: 32

OBJ: 3 KEY: Conceptual DIF: Moderate

- 43. The difference between negative reinforcement and punishment is
 - a. negative reinforcement and punishment are identical.
 - b. negative reinforcement increases a response and punishment decreases it.
 - c. negative reinforcement must be paired with a positive reinforcement.
 - d. punishment is always paired with a positive reinforcement.

ANS: b REF: 32

OBJ: 3 KEY: Factual DIF: Difficult

- 44. ____ occurs when something unpleasant arrives and ____ occurs when something unpleasant is removed.
 - a. Negative reinforcement; punishment
 - b. Punishment; positive reinforcement
 - c. Negative reinforcement; positive reinforcement
 - d. Punishment; negative reinforcement

ANS: d REF: 32

OBJ: 3 KEY: Factual DIF: Difficult

- 45. Beverly changed her hair color and some of her friends laughed at her. Their behavior is an example of
 - a. punishment.
 - b. negative reinforcement.
 - c. positive reinforcement.
 - d. extinction.

ANS: a REF: 33

OBJ: 3 KEY: Conceptual DIF: Moderate

- 46. The founder of social cognitive theory was
 - a. Skinner in the 1950s.
 - b. Freud in the 1930s.
 - c. Bandura in the 1960s.
 - d. Adler in the 1940s.

ANS: c REF: 33

OBJ: 3 KEY: Factual DIF: Moderate

- 47. Social cognitive theory is closely aligned with which major theoretical perspective?
 - a. Behaviorism
 - b. Psychodynamic
 - c. Humanism
 - d. Psychoanalytic

ANS: a REF: 33

OBJ: 3 KEY: Factual DIF: Easy

- 48. _____ occurs when an organism is influenced by observing a model.
 - a. Observational learning
 - b. Classical conditioning
 - c. Operant conditioning
 - d. Model learning

ANS: a REF: 33

OBJ: 3 KEY: Factual DIF: Easy

- 49. Which of the following does NOT describe observational learning?
 - a. Requires attention and understanding
 - b. Uses memory and information
 - c. Part of Skinner and Pavlov's theories
 - d. includes understanding consequences

ANS: c REF: 33

OBJ: 3 KEY: Conceptual DIF: Difficult

- 50. Social cognitive theory explains the influence of some role models when
 - a. the model's behavior leads to positive outcomes.
 - b. individuals see similarity between the model and themselves.
 - c. individuals like or respect the model.
 - d. all of these occur.

ANS: d REF: 33

OBJ: 3 KEY: Conceptual DIF: Moderate

- 51. A major contribution of behavioral theory to personality is the recognition that
 - a. situational factors alone shape personality.
 - b. both personality and situational factors shape behavior.
 - c. personality factors shape situations.
 - d. classical and operant conditioning explain all aspects of personality.

ANS: b REF: 34

OBJ: 3 KEY: Factual DIF: Difficult

- 52. _____ emphasizes free will and human potential for personal growth.
 - a. Humanism
 - b. Behaviorism
 - c. Psychodynamics
 - d. Social learning

ANS: a REF: 34

OBJ: 4 KEY: Factual DIF: Easy

- 53. Which of the following is NOT a way in which humanists criticized other theories?
 - a. Behaviorists focus too much on animal research.
 - b. Freud focused too much on the unconscious.
 - c. Humans are dominated by irrational needs and conflicts.
 - d. People are viewed as controlled by their past and environment.

ANS: b REF: 34

OBJ: 4 KEY: Factual DIF: Difficult

- 54. _____ called his approach a person-centered theory.
 - a. Freud
 - b. Adler
 - c. Rogers
 - d. Jung

ANS: c REF: 34

OBJ: 4 KEY: Factual DIF: Easy

- 55. Rogers viewed which construct as the core of personality structure?
 - a. Self-concept
 - b. Self-actualization
 - c. Self-confidence
 - d. Self-efficacy

ANS: a REF: 34

OBJ: 4 KEY: Factual DIF: Easy

56.	is a collection of b	beliefs about one's own nature, unique qualities, and typical	
	behavior.		
	a. Self-concept		
	b. Self-esteem		
	c. Self-confidence		
	d. Self-efficacy		
ANIC	DEE 24		
ANS: a		DIE: C.	
OBJ: 4	KEY: Factual	DIF: Easy	
57.	Incongruence refers to the disparity between one's self-concept and one's		
	a. self-esteem.		
	b. actual experience.		
	c. congruence.		
	d. self-awareness.		
ANS: b	REF: 35		
OBJ: 4	KEY: Factual	DIF: Moderate	
58.	Rogers believed that	love from parents fosters congruence of self-concept and	
	actual experience.		
	a. conditional		
	b. tough		
	c. unconditional		
	d. distorted		
ANS: c	REF: 35		
OBJ: 4		DIF: Easy	
59.	According to Rogers, peo	onle behave defensively	
57.	a. to decrease anxiety.	opic behave defensively	
	b. to protect their inacci	urate self-concept	
	c. by ignoring, denying,	-	
	d. to do all of these.	and distorting reality.	
ANS: d	REF: 35		
OBJ: 4	KEY: Factual	DIF: Moderate	
60.	The theorist whose key contributions were how motives are organized hierarchically and		
	a description of the healthy personality was		
	a. Bandura.		
	b. Rogers.		
	c. Maslow.		
	d. None of these.		
ANS: c	REF: 36		
OBJ: 4	KEY: Factual	DIF: Easy	

- 61. Maslow's systematic arrangement of needs according to priority is called
 - a. a pyramid.
 - b. personality development and dynamics.
 - c. the self-actualization chart.
 - d. a hierarchy of needs.

ANS: d REF: 36

OBJ: 4 KEY: Factual DIF: Easy

- 62. Which of the following is NOT true of the structure of Maslow's hierarchy?
 - a. More basic needs are at the lower levels.
 - b. When lower needs are satisfied, people focus on them exclusively.
 - c. When lower needs are not being satisfied people regress to lower levels.
 - d. The middle of the higher and lower levels includes belongingness, esteem, and cognitive needs.

ANS: b REF: 36

OBJ: 4 KEY: Factual DIF: Difficult

- 63. Maslow argued that humans have an innate drive toward
 - a. physiological needs.
 - b. safety and security.
 - c. personal growth.
 - d. lower levels of needs.

ANS: c REF: 37

OBJ: 4 KEY: Factual DIF: Moderate

- 64. According to Maslow, the growth need to fulfill one's potential is the need for
 - a. self-actualization.
 - b. self-esteem.
 - c. self-concept.
 - d. belongingness and love.

ANS: a REF: 37

OBJ: 4 KEY: Factual DIF: Easy

- 65. Which of the following is NOT a characteristic of a self-actualizing person?
 - a. Ethical discrimination between means and ends
 - b. Mystical and peak experiences
 - c. Efficient perception of reality
 - d. Many strong friendships

ANS: d REF: 37

OBJ: 4 KEY: Factual DIF: Moderate

- 66. Maslow's characteristics of self-actualizing people
 - a. provides a picture of the healthy personality.
 - b. explains mental disorders.
 - c. highlights religious fanaticism.
 - d. is a picture of maladjustment.

ANS: a REF: 37

OBJ: 4 KEY: Conceptual DIF: Moderate

- 67. Criticisms of humanists include that
 - a. humanists propose hypotheses that are too objective in nature.
 - b. it is too easy to find self-actualizing persons.
 - c. humanists are overly optimistic.
 - d. humanists disagree with positive psychology.

ANS: c REF: 37

OBJ: 4 KEY: Factual DIF: Easy

- 68. The idea that personality could be largely influenced by genetics was developed in the 1960s by
 - a. Rogers.
 - b. Skinner.
 - c. Eysenck.
 - d. Bandura.

ANS: c REF: 38

OBJ: 5 KEY: Factual DIF: Easy

- 69. Eysenck proposed that introverts tend to have
 - a. less arousability.
 - b. more difficulty being conditioned than extraverts.
 - c. higher levels of physiological arousal.
 - d. have less inhibitions in social situations.

ANS: c REF: 38

OBJ: 5 KEY: Factual DIF: Moderate

- 70. The purpose of twin studies is to allow researchers to study
 - a. people with the same birthdates.
 - b. the difference between identical twins.
 - c. people with the same genes.
 - d. the amount of heritability in a trait.

ANS: d REF: 38

OBJ: 5 KEY: Factual DIF: Moderate

- 71. The ____ is an estimate of the proportion of trait variability in a population that is determined by variations in genetic inheritance.
 - a. fraternal/identical ratio
 - b. determinant ratio
 - c. heritability ratio
 - d. genetic percentage

ANS: c REF: 38

OBJ: 5 KEY: Factual DIF: Easy

- 72. Which of the following has a heritability of 50-70%?
 - a. Height
 - b. The Big Five
 - c. Weight
 - d. intelligence

ANS: d REF: 38

OBJ: 5 KEY: Factual DIF: Difficult

- 73. Of the following items, which one has the greatest percentage of heritability?
 - a. Height
 - b. The Big Five
 - c. Weight
 - d. Intelligence

ANS: a REF: 38

OBJ: 5 KEY: Conceptual DIF: Moderate

- 74. Marianne is short like her father and intelligent like her mother. These two characteristics are due primarily to
 - a. her genes.
 - b. her father's genes and her mother's nurturing.
 - c. her father's nurturing and her mother's genes.
 - d. chance.

ANS: d REF: 38

OBJ: 5 KEY: Conceptual DIF: Moderate

- 75. Identical twins have been found to be more similar than fraternal twins on the Big Five personality traits. This means that
 - a. nurturing is most important to personality.
 - b. there is no relationship of hereditability with personality traits.
 - c. we do not understand genetics or personality.
 - d. personality traits are linked to genes.

ANS: d REF: 38

OBJ: 5 KEY: Conceptual DIF: Moderate

- 76. _____ psychologists propose that patterns of behavior in a species are the result of adaptation.
 - a. Evolutionary
 - b. Ecological
 - c. Adaptive
 - d. Biological

ANS: a REF: 38-39

OBJ: 5 KEY: Factual DIF: Easy

- 77. David Buss argues the evolutionary approach to personality by saying the Big Five traits
 - a. are independent of the environment.
 - b. were important to developing countries, but not to industrial ones.
 - c. apply only to the U.S. culture.
 - d. are adaptive across cultures.

ANS: d REF: 39

OBJ: 5 KEY: Factual DIF: Moderate

- 78. Theo has noticed that people seem very sensitive to variations in the ability to bond with others. This matches the evolutionary viewpoint of
 - a. openness.
 - b. neuroticism.
 - c. agreeableness.
 - d. extraversion.

ANS: d REF: 39

OBJ: 5 KEY: Conceptual DIF: Moderate

- 79. Genelle thinks being agreeable is adaptive to humans. She views most matches with the _____ perspective.
 - a. behavioral
 - b. psychodynamic
 - c. evolutionary
 - d. humanist

ANS: c REF: 39

OBJ: 5 KEY: Conceptual DIF: Easy

- 80. Which of the following is NOT a criticism of the biological perspective of personality?
 - a. Hindsight bias
 - b. Heredity and environment interact in a complicated manner.
 - c. Other traits may not fit the model
 - d. Genetics have been studied too much in the field of psychology.

ANS: d REF: 39

OBJ: 5 KEY: Conceptual DIF: Easy

- 81. John molds his interpretation of his past dating to fit how the relationship turned out. This is a common tendency called
 - a. hindsight bias.
 - b. hereditary influence.
 - c. an inadequate theory.
 - d. wishful thinking.

ANS: a REF: 39

OBJ: 5 KEY: Conceptual DIF: Moderate

- 82. Cross-cultural studies in the area of personality have found
 - a. continuity across cultures.
 - b. variability across cultures.
 - c. the Big Five personality traits are typical across cultures.
 - d. all of these.

ANS: d REF: 39-40

OBJ: 6 KEY: Factual DIF: Moderate

- 83. The universality of the basic dimensions of personality trait structure are
 - a. refuted by research.
 - b. proven by research.
 - c. tentatively supported by research.
 - d. impossible to research.

ANS: c REF: 40

OBJ: 6 KEY: Factual DIF: Easy

- 84. Which of the following was NOT found in cross-cultural studies of personality?
 - a. Brazilians scored high in neuroticism.
 - b. Germans scored low in openness to experience.
 - c. Czechs scored high in agreeableness.
 - d. Malaysians scored high in conscientiousness.

ANS: b REF: 40

OBJ: 6 KEY: Factual DIF: Difficult

- 85. _____ is the concept of widely recognized prototype personalities within a culture.
 - a. National character
 - b. Cultural trait
 - c. Prototypical character
 - d. Cultural bias

ANS: a REF: 40

OBJ: 6 KEY: Factual DIF: Moderate

- 86. National character studies compared to personality trait scores indicate
 - a. they are identical constructs.
 - b. there is a moderate negative correlation between the two.
 - c. there is a strong positive correlation between the two.
 - d. there is little or no relationship between the two.

ANS: d REF: 40

OBJ: 6 KEY: Factual DIF: Moderate

- 87. Which of the following is supported by research about national character?
 - a. National character is an accurate portrayal about cultures.
 - b. National character consists of profoundly inaccurate stereotypes.
 - c. National character helps fight cultural prejudices.
 - d. National character does not exist in most cultures.

ANS: b REF: 40

OBJ: 6 KEY: Factual DIF: Difficult

- 88. An example of an inaccurate match between Canadian national stereotypes and personality trait scores found by Terracciano and others is
 - a. Canadians are perceived as high in neuroticism but score average.
 - b. Canadians are perceived as low in extraversion, but score high.
 - c. Canadians are perceived as high in agreeableness, but score average.
 - d. Canadians are perceived as low in conscientiousness, but score high.

ANS: c REF: 40

OBJ: 6 KEY: Factual DIF: Moderate

- 89. Which of the following is NOT indicated by cross-cultural research in personality?
 - a. Some genuine cultural differences exist in some personality traits.
 - b. Cultural disparities are small.
 - c. It is difficult to compare samples from different cultures.
 - d. Cultural trait scores are not as accurate as national character perceptions.

ANS: d REF: 40

OBJ: 6 KEY: Factual DIF: Moderate

- 90. William is Canadian. It is likely that he may be prejudged as _____ in agreeableness and have a personality trait score that is _____.
 - a. high; high
 - b. low; average
 - c. low; low
 - d. high; average

ANS: b REF: 40

OBJ: 6 KEY: Conceptual DIF: Easy

- 91. Personality tests are
 - a. subject to unconscious distortion.
 - b. often misunderstood.
 - c. useful in helping people learn more about themselves.
 - d. all of these.

ANS: d REF: 41

OBJ: 7 KEY: Factual DIF: Easy

- 92. Which of the following is NOT a purpose of psychological tests?
 - a. Measuring aptitudes
 - b. Measuring personality traits
 - c. Measuring weakness of character
 - d. Measuring abilities

ANS: c REF: 41

OBJ: 7 KEY: Factual DIF: Moderate

- 93. Dr. Smith is going to give a psychological test to two classes. She wants to be sure she uses the same procedures for each class. This is an example of
 - a. standardization.
 - b. reliability.
 - c. validity.
 - d. all of these.

ANS: a REF: 41

OBJ: 7 KEY: Conceptual DIF: Easy

- 94. The idea that psychological tests tell you how you score relative to other people relates to
 - a. test validity.
 - b. test standardization.
 - c. test norms.
 - d. test reliability.

ANS: c REF: 41

OBJ: 7 KEY: Factual DIF: Moderate

- 95. Llana took a psychology test last year. She is taking the same test this year and can expect the results to be similar. This is an example of the _____ of a test.
 - a. reliability
 - b. validity
