Chapter 02

The Financial Statement Auditing Environment

True / False Questions

1. A series of business and related auditing failures led to the passage of the Sarbanes-Oxley Act (2002).

True False

2. The primary audit context with which an auditor is concerned is the client's industry or business.

True False

3. The audit committee generally includes senior executives of the organization.

True False

4. A financial statement audit is generally organized based on the five basic business processes or cycles.

True False

5. One of the five basic business processes is the warehousing cycle.

True False

6. Audit procedures are designed to test management assertions.

True False

7. PCAOB auditing standards must be followed on all financial statement audits performed in the U.S.

True False

8. A financial statement audit must be conducted based on GAAP.

True False

9. Generally, the financial statements of U.S. companies must be prepared based on GAAP.

True False

10. PCAOB auditing standards must be followed on all audits of public Companies' financial statements.

True False

Multiple Choice Questions

11. The Audit committee consists of:

- A. Members of management
- B. A subcommittee of the AICPA who establish the SAS
- C. Members of the Board of Directors
- D. Appointed government overseers

12. What organization is responsible for setting auditing standards for audits of publicly-traded companies in the U.S.?

- A. AICPA
- B. FASB
- C. GASB
- D. PCAOB

13. The Public Company Accounting Oversight Board's role is to

- A. Conduct the final review of auditors' work before the auditor's opinion is issued
- B. Oversee the auditors of public companies in order to protect the interests of investors
- C. Conduct audits of governmental entities
- D. Sanction auditors who fail to follow GAAS

14. The authoritative body designed to promulgate standards concerning an accountant's association with audited financial statements of an entity that is required to file financial statements with the SEC is the

- A. Financial Accounting Standards Board
- B. General Accounting Office
- C. Public Companies Accounting Oversight Board
- D. Auditing Standards Board

15. The auditor must be independent of the audit client unless:

- A. The lack of independence does not influence his or her professional judgment.
- B. Both parties agree that the independence issue is not a problem.
- C. The lack of independence is insignificant.
- D. None of the above--the auditor cannot lack independence.

16. Which of the following describes the generally accepted auditing standard requiring a critical review of the work done and the judgment exercised by those assisting in an audit at every level of supervision?

- A. Proficiency
- B. Audit risk
- C. Inspection
- D. Due care

17. Which of the following best describes the general character of the three generally accepted auditing standards that are classified as standards of fieldwork?

- A. The competence, independence, and professional care of persons performing the audit
- B. Criteria for the content of the auditor's report on financial statements and related footnote disclosures
- C. The criteria of audit planning and evidence-gathering
- D. The need to maintain independence in mental attitude in all matters relating to the audit

18. The first general standard requires that the examination of financial statements is to be performed by a person or persons having adequate technical training and

- A. Independence with respect to the financial statements and supplementary disclosures
- B. Exercising professional care as judged by peer reviewers
- C. Proficiency as an auditor which likely has been acquired from previous experience
- D. Objectivity as an auditor as verified by proper supervision

19. The first standard of reporting requires that, "the report shall state whether the financial statements are presented in accordance with generally accepted accounting principles." This passage requires

- A. A statement of fact by the auditor
- B. An opinion by the auditor
- C. An implied measure of fairness
- D. An objective measure of compliance

20. Because of the risk of material misstatement, an audit of financial statements in accordance with generally accepted auditing standards should be planned and performed with an attitude of

- A. Objective cynicism
- B. Independent differentialism
- C. Professional skepticism
- D. Impartial conservatism

21. The accuracy of information included in footnotes accompanying the audited financial statements issued by a company whose shares are traded on a stock exchange is the primary responsibility of

- A. The stock exchange officials
- B. The independent auditor
- C. The company's management
- D. The Securities and Exchange Commission

22. The primary responsibility for the adequacy of disclosures in the financial statements of a publicly held company rests with the
- A. Partner assigned to the audit engagement
 - B. Management of the company
 - C. Auditor in charge of the fieldwork
 - D. Securities and Exchange Commission
23. The largest public accounting firms typically are structured as
- A. Subchapter S corporations
 - B. Professional corporations
 - C. Limited liability partnerships
 - D. Limited liability corporations
24. Typically, an external auditor first gets supervisory experience at what level of authority?
- A. Associate
 - B. Senior
 - C. Manager
 - D. Partner
25. An "in-charge" auditor typically holds the rank of
- A. Associate
 - B. Senior
 - C. Manager
 - D. Partner
26. Which of the following best describes the concept of risk assessment on which auditors can provide independent assurance?
- A. The risk that financial statements are misstated because of fraud
 - B. The risk that financial statements are misstated because of error or fraud
 - C. Whether management has systems in place to evaluate and effectively manage the entity's business risks
 - D. Developing client acceptance and continuance practices that minimize the likelihood of lawsuits against the auditor

27. Forensic audits include all of the following except

- A. Criminal investigations
- B. Manufacturers' assertions about product quality
- C. Employee fraud
- D. Management fraud

28. A typical objective of an operational audit is for the auditor to

- A. Determine whether the financial statements present fairly the entity's operations
- B. Evaluate the feasibility of attaining the entity's operational objectives
- C. Make recommendations for improving performance
- D. Report on the entity's relative success in attaining profit maximization

29. Governmental auditing often extends beyond examinations leading to the expression of an opinion on the fairness of financial presentation and includes audits of efficiency, effectiveness, and

- A. Monetary stimulus
- B. Evaluation
- C. Accuracy
- D. Compliance

30. External auditors are referred to as "external" because

- A. They report to users outside of the audited entity
- B. They are paid by parties outside of the audited entity
- C. They are not employees of the entity being audited
- D. Their offices are not at the entity's place of business

31. Which is not an attribute of an external auditor?

- A. Independence
- B. Client advocacy
- C. Objectivity
- D. Concern for the public interest

32. What is the general character of the work conducted in performing a forensic audit for a company?

- A. Providing assurance that the financial statements are not materially misstated
- B. Detecting or deterring fraudulent activity
- C. Offering an opinion on the reliability of the specific assertions made by management
- D. Identifying the causes of an entity's financial difficulties

33. Which of the following is NOT a requirement of the Sarbanes-Oxley Act?

- A. Audit firms cannot provide most types of nonaudit services to their public company audit clients
- B. Audit firms are required to rotate audit partners off audit engagements every five years for public company audits
- C. Firms that audit public companies are subject to inspection by the PCAOB
- D. A certain number of hours, which is based on the size of the company being audited, must be spent on each audit engagement

34. A CPA is most likely to refer to one or more of the three general auditing standards in determining

- A. The nature of the CPA's report qualification
- B. The scope of the CPA's auditing procedures
- C. Requirements for the review of the entity and its environment
- D. Whether the CPA should undertake an audit engagement

35. Who bears ultimate responsibility for the financial statements?

- A. Management of the organization, equally with the external auditor that audits the statements.
- B. Management and the shareholders of the organization.
- C. The external auditor that audits the statements.
- D. Management of the organization.

36. The three general standards are concerned with:

- A. Adequate training and proficiency of the auditor, proper planning and supervision, and due professional care.
- B. Adequate training and independence.
- C. Due professional care.
- D. Both b and c.

37. The first general standard recognizes that regardless of how capable an individual may be in other fields, the individual cannot meet the requirements of the auditing standards without the proper

- A. Business and finance courses
- B. Quality control and peer review
- C. Education and experience in auditing
- D. Supervision and review skills

38. The main difference between SAS and AU is:

- A. They are the same except that SAS are organized chronologically and the AU are organized by topical area.
- B. SAS are issued by the ASB and AU are issued by the PCAOB.
- C. SAS are issued by the PCAOB and AU are issued by the ASB.
- D. SAS define minimum standards of performance for auditors while AU define financial accounting principles that must be followed according to GAAP.

39. The AICPA's Statements on Auditing Standards can be described as

- A. Providing very specific guidance about the specific activities an auditor must perform on each engagement
- B. Similar to financial accounting standards in that they are developed by the government
- C. Defining the minimum standards of performance for an auditor
- D. Providing assurance that an auditor will not issue an incorrect opinion

40. With regard to detecting fraud, auditing standards require auditors to
- A. Perform procedures designed to detect all instances of fraud that might affect the financial statements
 - B. Provide reasonable assurance that the financial statements are not materially misstated because of fraud
 - C. Issue an unqualified opinion only when the auditor is satisfied that no instances of fraud have occurred
 - D. Design the audit program to meet financial statement users' expectations concerning fraud

41. The objective of the second Standard of Reporting is to provide assurance that
- A. There are no variations in the format and presentation of financial statements
 - B. Substantially different transactions and events are not accounted for on an identical basis
 - C. The auditor is consulted before material changes are made in the application of accounting principles
 - D. The comparability of financial statements between periods is not materially affected by changes in accounting principles that are not disclosed

42. An internal auditor is likely to be more concerned with _____ than the external auditor.
- A. Internal administrative procedures
 - B. Cost accounting procedures
 - C. The efficiency of operations
 - D. Internal control

43. Which of the following is not included in the broad category of assurance services?
- A. operational audit
 - B. reporting on internal control
 - C. accounting or review services
 - D. evaluation of the client's risk management framework

44. Which of the following is not explicitly a part of the IIA's definition of internal auditing?

- A. Internal auditing is an objective assurance activity
- B. Internal auditing is a consulting activity
- C. Internal auditing should help an organization accomplish its objectives
- D. Internal auditors should help external auditors complete the annual financial statement audit

45. Which of the following statements regarding the PCAOB is incorrect?

- A. It is a public-sector, nonprofit corporation
- B. It is overseen by the SEC
- C. It sets standards for public company audits
- D. It has delegated all of its standard-setting authority to the AICPA

46. Due professional care requires

- A. Auditors to plan and perform their duties with the skill and care that is commonly expected of accounting professionals
- B. The examination of all available corroborating evidence
- C. The exercise of error-free judgment
- D. A study and review of internal controls that includes tests of controls

47. Which of the following best describes the role of corporate governance?

- A. Management decides which accounting principles are the most appropriate.
- B. Shareholders vote to decide who should be members of the board of directors.
- C. Holding the management team accountable to shareholders and other constituents for the utilization of the entity's resources.
- D. Management often is compensated based on the company's profitability.

48. The four standards of reporting are concerned with all of the following except:

- A. The presentation of the financial statements based on GAAS.
- B. The presentation of the financial statements based on GAAP.
- C. Whether principles are consistently applied, whether all informative disclosures have been made and the degree of responsibility the auditor is taking.
- D. The degree of responsibility the auditor is taking.

49. Which of the following best describes what is meant by generally accepted auditing standards?

- A. Audit assertions generally determined on audit engagements
- B. Acts to be performed by the auditor
- C. Standards of quality for the auditor's performance
- D. Procedures to be used to gather evidence to support financial statements

50. The fourth standard of reporting requires an auditor to render a report whenever an auditor's name is associated with financial statements. The overall purpose of the fourth standard of reporting is to require that reports

- A. State that the examination of financial statements has been conducted in accordance with generally accepted auditing standards
- B. Indicate the character of the auditor's examination and the degree of responsibility assumed by the auditor
- C. Imply that the auditor is independent in fact as well as in appearance with respect to the financial statements under examination
- D. Express whether the accounting principles used in preparing the financial statements have been applied consistently in the period under examination

51. The three standards of fieldwork are concerned with:

- A. Planning and supervision and understanding the client's internal control system.
- B. Choosing evidence with due professional care.
- C. Adequate training to understand the client's internal controls system.
- D. Ensuring consistency in financial statements for periods presented.

52. The fourth reporting standard requires the auditor's report to contain either an expression of opinion regarding the financial statements taken as a whole or an assertion to the effect that an opinion cannot be expressed. The objective of the fourth standard is to prevent

- A. An auditor from reporting on one basic financial statement and not the others
- B. An auditor from expressing different opinions on each of the basic financial statements
- C. Management from reducing its final responsibility for the basic financial statements
- D. Misinterpretations regarding the degree of responsibility the auditor is assuming

53. Which assertions may be tested for the "account balances" category of management assertions?

- A. Existence, accuracy, rights and obligations, completeness
- B. Existence, rights and obligations, completeness, valuation and allocation
- C. Occurrence, rights and obligations, completeness, valuation and allocation
- D. Occurrence, accuracy, rights and obligations, completeness

54. Which assertions may be tested for the "transactions and events" category of management assertions?

- A. Existence, completeness, rights and obligations, accuracy, cutoff and classification
- B. Occurrence, completeness, rights and obligations, accuracy, cutoff and classification
- C. Occurrence, completeness, authorization, accuracy, cutoff and classification
- D. Existence, rights and obligations, accuracy, authorization, and completeness

55. Which assertions may be tested for the "presentation and disclosure" category of management assertions?

- A. Existence, rights and obligations, cutoff and classification, completeness, accuracy and valuation
- B. Occurrence, rights and obligations, existence, accuracy and valuation, cutoff and classification
- C. Occurrence, completeness, classification and understandability, cutoff and classification
- D. Occurrence, rights and obligations, completeness, classification and understandability, accuracy and valuation

Short Answer Questions

56. You are the owner of a small grocery store, Corner Marketplace. Explain the five process categories and how they apply to your business.

57. Name two account balance management assertions pertaining to inventory and explain why they are considered in an audit.

58. Define corporate governance, the board of directors, and the audit committee and explain how they relate to each other.

59. Describe the organizations involved in standard setting for auditors and what their respective roles are in setting current auditing standards.

60. What are the three general auditing standards found within the 10 GAAS (NOT the three main categories of GAAS) and why is each important?

61. Jane Goodperson performed an audit on the Quagmire Corporation and issued an unqualified opinion. Jane performed the audit with due professional care and in accordance with generally accepted auditing standards. Two months after the report is issued, Jane discovers on the news that the CEO of Quagmire, Johnny Best had been stealing small amounts of inventory. The amount, however, is immaterial compared to the overall inventory of the corporation. Jane soon receives a call from Quagmire's CFO, Mark Beastly. Mark wants Jane to refund her audit fees. Mark thinks Jane did not properly perform the audit, as she did not discover this fraud. Further, he feels that now Quagmire's financial statements are not fairly stated because of Jane. How should Jane respond to this claim?

62. Mike has just graduated from State University with a bachelor's degree in accounting. He would like to pursue a career in auditing. What options does Mike have? Describe three auditing career options, including a description of the organization Mike would work for.

63. With respect to an entity's financial statements, describe both the responsibility of management and of the auditor.

64. What auditing standards are used to conduct an audit for a privately-held corporation? What auditing standards are used to conduct an audit for a publicly held-and-traded corporation? What organization is responsible for setting each of these sets of standards?

65. There are several types of audit services that are provided by auditors. Identify and define three of these types of audits.

Chapter 02 The Financial Statement Auditing Environment **Answer Key**

True / False Questions

1. A series of business and related auditing failures led to the passage of the Sarbanes-Oxley Act (2002).

TRUE

*AACSB: Communications

Short Answer Questions

56. You are the owner of a small grocery store, Corner Marketplace. Explain the five process categories and how they apply to your business.

Financing: The financing process involves loans or shareholder capital financing for assets such as land, buildings, and equipment. Corner Marketplace may have a bank loan or lease for its store. It may also have solicited other means of financing, such as additional owner funds.

Purchasing: Businesses acquire goods and services to support the sale of their own goods or services through the purchasing process. Corner Marketplace would purchase food inventory to sell to customers. It might also need to purchase display cases, freezers, etc. to store and display the inventory.

Human Resource Management: Business organizations hire personnel to perform various functions in accordance with the enterprise's mission and strategy. Corner Marketplace should have established policies for hiring, training, evaluating, counseling, promoting, compensating, and terminating employees.

Inventory Management: A grocery store would have significant inventory to manage, which it accomplishes as part of the inventory management process. The store would need to allocate proper costs to inventory and would need to account for produce, etc. that is expired.

Revenue: Corner Marketplace would generate revenue through sales of food to customers and would collect the proceeds of those sales. Typically, a small grocery store would not have accounts receivables from customers, as customers would pay immediately. However, the revenue cycle includes cash receipts and credit card transactions.

57. Name two account balance management assertions pertaining to inventory and explain why they are considered in an audit.

Answers should include two of the following:

Existence: A company has an incentive to overstate inventory to improve the appearance of its balance sheet. Auditors can perform procedures, such as physical examination, to test that the company's stated liabilities actually exist.

Rights: Auditors also need to ensure that the company has rights to its stated inventory. For instance, a company may be storing customer goods or holding goods on consignment; in these cases, the company does not actually hold the rights to the goods.

Valuation: A company has an incentive to overvalue its inventory. Again, this improves the appearance of the balance sheet. Auditors should understand the possibility that some merchandise may be obsolete, may not be valued at the market cost or may include improperly allocated costs.

Completeness: A company's inventory may not be properly stated due to inappropriate exclusion of inventory items. The inventory may not include everything that should have been recorded. This event may occur with faulty internal controls, so auditors should be aware of this possibility.

58. Define corporate governance, the board of directors, and the audit committee and explain how they relate to each other.

Corporate governance is all the people, processes, and activities in place to help ensure proper stewardship over an entity's assets.

The board of directors is the body primarily responsible for management oversight in corporations.

The audit committee oversees internal and external audit work done for an entity.

The board of directors plays a part in ensuring proper corporate governance by holding management responsible for the usage of the entity's assets. The audit committee is made up of members of the board of directors. The audit committee enhances corporate governance by holding management accountable for their activities through audits of their work.

59. Describe the organizations involved in standard setting for auditors and what their respective roles are in setting current auditing standards.

Most auditing standards were developed by the Accounting Standards Board (ASB). At that time, the profession was self-regulated. However, the Sarbanes-Oxley Act of 2002 transferred the authority to set auditing standards for public company audits to the Public Company Accounting Oversight Board (PCAOB), which is overseen by the Securities and Exchange Commission (SEC). However, the PCAOB adopted the ASB's auditing standards on an interim basis. CPAs must still abide by the AICPA's Code of Professional Conduct at all times. They must also follow auditing standards set by the ASB when performing audits of private companies and other entities that are not public companies.

60. What are the three general auditing standards found within the 10 GAAS (NOT the three main categories of GAAS) and why is each important?

The first standard states that an auditor must have adequate training and proficiency as an auditor. This is gained through formal education, continuing education programs, and experience. This ongoing training is necessary so auditors can stay up to date with current developments in the industry.

The second standard requires that the auditor maintain an attitude of independence on an engagement. Auditors must be independent in fact and in appearance to protect the profession's image of objectivity.

The third standard focuses on due professional care, which means that the auditor plans and performs his or her duties with a degree of skill commonly possessed by others in the profession. It is important that anyone who practices as a CPA is able to offer a certain level of service.

61. Jane Goodperson performed an audit on the Quagmire Corporation and issued an unqualified opinion. Jane performed the audit with due professional care and in accordance with generally accepted auditing standards. Two months after the report is issued, Jane discovers on the news that the CEO of Quagmire, Johnny Best had been stealing small amounts of inventory. The amount, however, is immaterial compared to the overall inventory of the corporation. Jane soon receives a call from Quagmire's CFO, Mark Beastly. Mark wants Jane to refund her audit fees. Mark thinks Jane did not properly perform the audit, as she did not discover this fraud. Further, he feels that now Quagmire's financial statements are not fairly stated because of Jane. How should Jane respond to this claim?

Jane should tell Mark that her responsibility was to plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. She had no responsibility to plan and perform the audit to obtain reasonable assurance that misstatements, whether caused by errors or fraud that are not material to the financial statements will be detected. Quagmire's management, not Jane, has responsibility for the financial statements. In fact, because of the Sarbanes-Oxley Act of 2002, Mark had to take explicit responsibility for the financial statements by "certifying" that he as CFO is responsible for establishing and maintaining internal control and that the financial statements fairly present the entity's financial conditions and operations. This statement is probably still true, since the amount stolen was immaterial.

62. Mike has just graduated from State University with a bachelor's degree in accounting. He would like to pursue a career in auditing. What options does Mike have? Describe three auditing career options, including a description of the organization Mike would work for.

Answer could include any three of the following:

External: Mike could become an external auditor. He would work for a CPA firm providing independent audits to nonpublic or public companies. Mike would need to pass the Uniform CPA Examination monitored by the American Institute of Certified Public Accountants. His state may have other requirements, such as 150 credit hours and experience.

Internal: Mike could also be an internal auditor. He would be directly employed by the entity on which he is performing audits. Internal auditors may conduct financial, internal control, compliance, operational, and forensic audits within their organization. Internal auditors are supported by the Institute of Internal Auditors.

Governmental: Another option for Mike is governmental auditing. This is essentially a form of internal auditing and Mike could be employed by federal (such as the Government Accountability Office or the Internal Revenue Service), state, or local agencies.

Forensic: Mike could also be a forensic auditor. Forensic auditors are employed by corporations, government agencies, public accounting firms, and consulting and investigative services firms. They are trained in detecting, investigating, and deterring fraud and white-collar crime and are supported by the Association of Certified Fraud Examiners.

64. What auditing standards are used to conduct an audit for a privately-held corporation? What auditing standards are used to conduct an audit for a publicly held-and-traded corporation? What organization is responsible for setting each of these sets of standards?

Auditing standards developed by the Auditing Standards Board are used to conduct an audit for a privately-held corporation or other entities that are not public companies. This includes the ten generally accepted auditing standards (GAAS) and the Statements on Auditing Standards (SAS). Auditing standards developed by the Public Company Accounting Oversight Board (PCAOB) must be used to conduct an audit for a publicly held-and-traded corporation. These standards include all those issued by the ASB until 2003 and any new standards issued by the PCAOB after that point.

65. There are several types of audit services that are provided by auditors. Identify and define three of these types of audits.

Answer should include any three of the following:

Financial Statement Audit: Auditors test the transactions, balances, and disclosures in a set of financial statements to determine if they are materially correct.

Internal Control Audit: Auditors test the internal controls of a company to determine whether the control system is functioning effectively (i.e. preventing, detecting, and correcting misstatements in the financial statements).

Compliance Audit: Auditors test the extent to which rules, policies, laws, covenants, or government regulations are followed by the entity.

Operational Audit: Auditors review part or all of an organization's activities to evaluate whether resources are being used effectively and efficiently. The auditor assesses the entity's performance, identifies areas for improvement, and develops recommendations.

Forensic Audit: Auditors conduct forensic audits to detect or deter fraudulent activities.
