Microeconomics A Contemporary Introduction 90 William & McEACHERN

MULTIPLE CHOICE

1. Opportunity cost exists because

	 a. technology is fixed at any point in time b. the law of comparative advantage is working c. resources are scarce but wants are unlimited d. the value of lost opportunities varies from per e. efficiency is measured by the monetary cost of 	•		
	ANS: C PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Moderate		Reflective Thinking Opportunity Cost
2.	Opportunity cost is the difference between the ber a. True b. False	nefits and the co	ests of a	choice.
	ANS: B PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Moderate		Analytic Opportunity Cost
3.	Opportunity cost is always measured in dollar terma. True b. False	ns, rather than i	n terms	of real goods and services.
	ANS: B PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Moderate		Analytic Opportunity Cost
4.	A rational decision maker engages in an activity is alternative. a. True b. False	f that activity is	more at	ttractive than the best
	ANS: A PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Moderate		Analytic Opportunity Cost
5.	The Sultan of Brunei, one of the world's richest pe a. True b. False	eople, does not f	face the	problem of scarcity.
	ANS: B PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Easy		Reflective Thinking Opportunity Cost
ó.	Opportunity cost is defined a. only in terms of money spent b. as the value of all alternatives not chosen c. as the value of the best alternative not chosen d. as the difference between the benefits from a calternative e. as the difference between the benefits from a calternative			
	ANS: C PTS: 1 DIF: LOC: Scarcity, tradeoffs, and opportunity cost	Moderate		Analytic Opportunity Cost

7.	Suppose you have an hour before your next class starts. You can either read a book, get sometheat, or take a nap. The opportunity cost of getting something to eat is a. the cost of what you eat b. the value of reading and sleeping c. the loss of value from not reading or sleeping d. the net benefit of sleeping for another hour e. impossible to determine because the most preferred alternative is not known	hing to
	ANS: E PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost	
8.	The opportunity cost of an activity is a. zero if you choose the activity voluntarily b. the amount of money spent on the activity c. the value of the best alternative not chosen d. the sum of benefits from all of the sacrificed alternatives e. the difference between the benefits and the costs of that activity	
	ANS: C PTS: 1 DIF: Moderate LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost	
9.	The opportunity cost of an activity a. depends on the individual's subjective values and opinions b. is the same for everyone c. must be calculated and known before undertaking that activity d. is irrelevant to decision making e. is not related to time	
	ANS: A PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost	
10.	Your opportunity cost of choosing a particular activity a. can be easily and accurately calculated b. cannot even be estimated c. does not change over time d. varies, depending on time and circumstances e. is measured by the money you spend on the activity	
	ANS: D PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost	
11.	The opportunity cost of college is the same for all students who are receiving full-tuition schola. True b. False	arships.
	ANS: B PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: CASE STUDY: The Opportunity Cost of College	
12.	The opportunity cost of going to college is best measured by the a. cost of room and board b. cost of tuition c. cost of room and board plus tuition d. income forgone by not working, plus tuition e. income forgone by not working, plus tuition and room and board	

	ANS: D PTS: 1 LOC: Scarcity, tradeoffs, and opportunity TOP: CASE STUDY: The Opportunity Co		Moderate College	NAT: A	Analytic
13.	3. Suppose you have a choice of working full-school. Summer tuition and books are \$2,20 \$1,000 for the summer, regardless of your otherefore, a. \$2,200 b. \$7,000 c. \$8,000 d. \$9,200 e. \$10,200	00. If y	ou worked, you	could ma	ake \$7,000. Your rent is
	ANS: D PTS: 1 LOC: Scarcity, tradeoffs, and opportunity TOP: CASE STUDY: The Opportunity Co	cost	Hard College	NAT: F	Reflective Thinking
14.	 Attending college can be viewed as a form investment in which costs are borne too investment in which benefits are receiv consumption, because learning is an end. leisure, because learning is an enjoyable saving for the future 	lay and ed toda joyable	y and costs are activity		
	ANS: A PTS: 1 LOC: Scarcity, tradeoffs, and opportunity TOP: CASE STUDY: The Opportunity Co		Moderate College	NAT: F	Reflective Thinking
15.	 5. The cost of attending college a. is entirely monetary and consists of expression meals b. is not monetary, but consists solely of form is the most valued alternative given up does not be in the same whether you attend a public 	orgone to atter hey rea	income nd college lly have no cho		
	ANS: C PTS: 1 LOC: Scarcity, tradeoffs, and opportunity TOP: CASE STUDY: The Opportunity Co			NAT: F	Reflective Thinking
16.	 6. Expenses for room and board a. are opportunity costs of attending collegor by the college b. are opportunity costs of attending collegor. c. are opportunity costs of attending collegor. d. are not usually part of the opportunity of the composition of the opportunity of the composition of the opportunity of	ge since ge if you cost of a your if you cost of a your if you cost of a general cos	e they involve on ou are on schola attending colleg you didn't attend attending colleg	cash expership, but ge, because l college ge, because	nditures t not otherwise se you would have se they are already
	ANS: D PTS: 1 LOC: Scarcity, tradeoffs, and opportunity TOP: CASE STUDY: The Opportunity Co		Moderate College	NAT: A	Analytic

17.	The opportunity cost of going to college includes the costs of tuition, books, fees, and a. nothing else b. housing c. housing and food d. earnings forgone by not working full-time e. housing, food, and earnings forgone by not working full-time
	ANS: D PTS: 1 DIF: Moderate NAT: Analytic LOC: Scarcity, tradeoffs, and opportunity cost TOP: CASE STUDY: The Opportunity Cost of College
18.	Opportunity cost is objective; therefore, its value does not change as circumstances change. a. True b. False
	ANS: B PTS: 1 DIF: Moderate NAT: Analytic LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective
19.	Which economic concept does the expression "time is money" reflect? a. opportunity cost b. specialization c. market exchange d. comparative advantage e. efficiency
	ANS: A PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective
20.	 attended the party, you could have studied for the test or gone to a movie. Which of the following is true? a. The opportunity cost of going to the movie is studying for the test. b. The opportunity cost of going to the party is the movie. c. The opportunity cost of going to the party is both the movie and the study time. d. Because you could go to the party only that night but could go to a movie any time, the opportunity cost of the party is the study time. e. From the above information, it's not possible to determine the opportunity cost of attending the party. ANS: E PTS: 1 DIF: Hard NAT: Reflective Thinking
	LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective
21.	 The term opportunity cost suggests that a. in any exchange situation where one person gains, someone else must lose b. not all individuals make the most of life's opportunities c. executives do not always recognize opportunities for profit as quickly as they should d. the only factor that is important in decision making is cost e. because goods are scarce, in order to get some good you must give up some other good in return
	ANS: E PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost

TOP: Opportunity Cost Is Subjective 22. If you enjoy playing golf, the opportunity cost of cleaning your room a. is the same on sunny days as it is on rainy days b. is greater on sunny days than it is on rainy days c. is smaller on sunny days than it is on rainy days d. does not change with the weather conditions e. is equal to the opportunity cost of any other chore you have to do that day PTS: 1 ANS: B DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective 23. Melissa is a self-employed lawyer who chooses a higher-priced restaurant 2 miles from home over a cheaper restaurant 15 miles from home. Which of the following is the most likely explanation for her behavior? a. The opportunity cost of her time is very low. b. She doesn't take travel time into consideration. c. She doesn't like to cook or doesn't know how. d. The prices at the more expensive restaurant understate the opportunity cost of eating there. e. The higher monetary cost of the more expensive restaurant is offset by the higher opportunity cost of the lower-priced restaurant. ANS: E PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective 24. The opportunity cost of a particular activity a. must be the same for everyone b. is the value of all alternative activities that are forgone c. has a maximum value equal to the minimum wage d. varies from person to person e. can usually be known with certainty ANS: D PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Opportunity Cost Is Subjective 25. The opportunity cost of an activity is best measured a. only by the monetary costs b. by the number of alternative activities that were forgone c. by the cost difference between the chosen activity and the next best alternative d. by the value expected from the best alternative that is forgone as the time wasted choosing among various activities

ANS: D PTS: 1 DIF: Moderate NAT: Analytic

LOC: Scarcity, tradeoffs, and opportunity cost

TOP: Opportunity Cost Is Subjective

26. A university should not disband its football team if it has already paid for the stadium.

a. True

b. False

ANS: B PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Scarcity, tradeoffs, and opportunity cost TOP: Sunk Cost and Choice

27.	Suppose you have purchased a non-refundable the trip. You can, however, sell the ticket. If yo to someone through overnight mail is \$20, and office for overnight delivery, what is the minima. \$700 because that is what the ticket cost. b. \$720 because that is the cost of the ticket ac. \$730 because that is the total cost of the ticket. More than \$730, so that you can make a pre. \$30 because the \$700 is a sunk cost.	ou paid you mum you and of cket a	id \$700 for the spend \$10 on a you should acc	ticket, courie ept for e buye	the cost of sending the ticket or to get the ticket to the post the ticket?
	ANS: E PTS: 1 D LOC: Scarcity, tradeoffs, and opportunity cos				Reflective Thinking Sunk Cost and Choice
28.	Sunk costs a. can only be measured in monetary terms b. are opportunity costs c. should influence a person's choice if that p d. lower the efficiency of production e. should not be considered when making eco		_	decisio	on maker
	ANS: E PTS: 1 D LOC: Scarcity, tradeoffs, and opportunity cos				Analytic Sunk Cost and Choice
29.	If people specialize in producing those goods for the economy as a whole can produce a greater a. True b. False			ss a co	mparative advantage, then
	ANS: A PTS: 1 D LOC: Gains from trade, specialization and tra TOP: The Law of Comparative Advantage		Moderate	NAT:	Reflective Thinking
30.	It is possible for one person to have a compara a. True b. False	itive a	ndvantage in the	e produ	action of all products?
	ANS: B PTS: 1 D LOC: Gains from trade, specialization and tra TOP: The Law of Comparative Advantage		Hard	NAT:	Reflective Thinking
31.	Comparative advantage is based on opportunit a. True b. False	ty cos	ts.		
	ANS: A PTS: 1 D LOC: Gains from trade, specialization and tra TOP: The Law of Comparative Advantage		Easy	NAT:	Analytic
32.	The law of comparative advantage says that a ga. has the greatest desire to consume that good b. has the lowest opportunity cost of producing c. has an absolute advantage in a related active d. has a comparative advantage in a related a e. is equally good at producing this good as s	od ng tha vity ectivity	at good	ce a go	ood if she

	ANS: B PTS: 1 DIF: Easy NAT: Analytic LOC: Gains from trade, specialization and trade TOP: The Law of Comparative Advantage
33.	 a. the individual with the lowest opportunity cost of producing a particular good should produce it b. comparative advantage exists only when one person has an absolute advantage in the production of two goods c. whoever has a comparative advantage in producing a good also has an absolute advantage in producing that good d. whoever has an absolute advantage in producing a good also has a comparative advantage in producing that good e. gains from trade are possible only when one person has the comparative advantage in producing both goods ANS: A PTS: 1 DIF: Moderate NAT: Analytic
	LOC: Gains from trade, specialization and trade TOP: The Law of Comparative Advantage
34.	Comparative advantage is a. the ability of an individual to specialize and produce a greater amount of some good than can another individual b. the number of units of one good given up in order to acquire something c. the ability of an individual to produce a good at a lower opportunity cost than some other individual can d. an expression for the amount of labor a particular individual needs to produce a fixed amount of capital goods e. a reference to an individual having the greatest opportunity cost of producing the good and produces it with the fewest resources
	ANS: C PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: The Law of Comparative Advantage
35.	If you and I agree to exchange four ginger snaps for one chocolate chip cookie, then it must be true that a. we are both at least as well off as we were before b. I am better off than I was before, but you are not c. you are better off than you were before, but I am not d. we are both better off than before e. we are both worse off than before
	ANS: A PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: The Law of Comparative Advantage
36.	The law of comparative advantage states that the person who should produce a good is the person who a. has the lowest opportunity cost of producing that good b. can produce that good using the fewest resources c. will produce that good using the most expensive resources d. has the most desire for that good e. has produced that good in the past
	ANS: A PTS: 1 DIF: Hard NAT: Analytic

	LOC: Gains from trade, specialization and trade TOP: The Law of Comparative Advantage
37.	A person who can produce more of a good than another person is said to possess a comparative advantage. a. True b. False
	ANS: B PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
38.	It is impossible for one person to have a comparative advantage in all tasks. a. True b. False
	ANS: A PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
39.	It is possible for one person to have an absolute advantage in two tasks and a comparative advantage in only one. a. True b. False
	ANS: A PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
40.	It is possible for one person to have an absolute advantage in something even if she has no comparative advantage in anything. a. True b. False
	ANS: B PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
41.	Absolute advantage is based on opportunity cost. a. True b. False
	ANS: B PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
42.	John takes 10 minutes to iron a shirt and 20 minutes to type a paper. Harry takes 10 minutes to iron a shirt and 30 minutes to type a paper. Which of the following statements is correct? a. Harry has a comparative advantage in ironing. b. Harry has a comparative advantage in typing. c. Harry has an absolute advantage in typing. d. Harry has an absolute advantage in ironing. e. Neither can gain from specialization and exchange.
	ANS: A PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade

	TOP: Absolute Advantage versus Comparative Advantage
43.	 Don can produce 10 pens or 20 pencils in one hour while Bob can produce 5 pencils or 15 pens in one hour. Which of the following statements is correct? a. Don has an absolute advantage over Bob in the production of pencils and Bob in the production of pens b. Bob has an absolute advantage over Don in the production of pencils c. Bob has a comparative advantage over Don in the production of pens d. Don has a comparative advantage over Bob in the production of pens e. Don does not have a comparative advantage in the production of either good
	ANS: C PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
44.	If Jason can wash a car in 20 minutes and wash a dog in 10 minutes, and Megan can wash a car in 15 minutes and wash a dog in 15 minutes, which of the following statements is true? a. The opportunity cost of washing a car is greater for Megan. b. The opportunity cost of washing a car is one dog bath for Jason. c. Megan could wash two cars in the time it takes to wash a dog. d. Jason has both a comparative and an absolute advantage in washing a dog. e. The opportunity cost of washing a dog is greater for Jason.
	ANS: D PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
45.	Janis mows the lawn in 1 hour and types a paper in 1 hour. Kristen mows the lawn in 2 hours and types a paper in 1 hour. Which of the following statements is true? a. Kristen has an absolute advantage in typing and a comparative advantage in mowing. b. Janis has an absolute advantage in both activities and a comparative advantage in typing. c. Janis has an absolute advantage in both activities and a comparative advantage in mowing. d. The opportunity cost of mowing the lawn is greater for Kristen than it is for Janis. e. Neither Janis nor Kristen would gain from specialization.
	ANS: D PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
46.	If Monica has a comparative advantage in baking and George has a comparative advantage in sewing, then a. Monica must have an absolute advantage in baking b. Monica must have an absolute advantage in sewing c. George must have an absolute advantage in baking d. George must have an absolute advantage in sewing e. we can conclude nothing about absolute advantage ANS: E PTS: 1 DIF: Moderate NAT: Reflective Thinking
	LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage

47. If Evan has an absolute advantage in cleaning and bookkeeping when compared to Gloria, then a. Evan must also have a comparative advantage in cleaning and bookkeeping

b. Evan must have a comparative advantage in cleaning

c. Evan must have a comparative advantage in bookkeeping

	d. Gloria has a comparative advantage in neither activitye. we can conclude nothing about comparative advantage
	ANS: E PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
48	. If Jeremy has an absolute advantage in cooking and Margaret has an absolute advantage in cleaning, then
	a. Jeremy has a comparative advantage in cooking, and Margaret has a comparative
	advantage in cleaningb. Jeremy has a comparative advantage in cleaning, and Margaret has a comparative advantage in cooking
	 c. we can conclude nothing about comparative advantage d. Jeremy has a comparative advantage in cooking, but we can conclude nothing about
	Margaret e. Margaret has a comparative advantage in cleaning, but we can conclude nothing about Jeremy
	ANS: C PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
49	 If Robin has an absolute advantage in both gardening and baking when compared to Robert, then a. Robin cannot benefit by trading with Robert b. Robin can benefit by specializing in gardening if Robert specializes in baking c. Robin can benefit by specializing in baking if Robert specializes in gardening d. Robin and Robert may benefit from trading, but there is insufficient information to determine who should specialize in what e. neither Robin nor Robert can benefit from trading with the other
	ANS: D PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
50	 If one person has the absolute advantage in producing both of two goods, then that person a. must also have a comparative advantage in both goods b. cannot benefit from trade c. cannot have a comparative advantage in either good d. will have the comparative advantage in only one good e. should specialize in the production of both goods
	ANS: D PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative Advantage
51	 A country has an absolute advantage in the production of a good if that country a. can produce the good using fewer resources than another country would require b. has the lowest opportunity cost of producing the good and can produce it with the fewest resources
	c. has the lowest opportunity cost of producing the good regardless of whether it is produced with the fewest resources
	d. has the greatest opportunity cost of producing the good regardless of whether it is produced with the fewest resources

e. has the greatest opportunity cost of producing the good and produces it with the fewest

	NARREND			
74.	Given the information in Exhibit 2-2, which product a. fishhooks because he can make 30 more per described because he is better at both c. fishing poles because that is where his compared. neither because Crusoe is better at both e. we cannot tell from the given information	lay than Crusoe	but only	•
	ANS: C PTS: 1 DIF: LOC: Gains from trade, specialization and trade TOP: Absolute Advantage versus Comparative A	Hard Advantage	NAT:	Reflective Thinking
75.	Specialization can sometimes create problems suc a. True b. False	ch as boredom ar	nd repeti	itive motion injuries.
	ANS: A PTS: 1 DIF: LOC: Gains from trade, specialization and trade	Easy		Analytic Specialization and Exchange
76.	Specialization often leads to gains in productivity a. True b. False	for society as a	whole.	
	ANS: A PTS: 1 DIF: LOC: Gains from trade, specialization and trade	Easy		Reflective Thinking Specialization and Exchange
77.	Barter occurs when a. two people share everything b. one product is exchanged directly for another c. money is used to buy goods d. money is exchanged directly for other money e. goods are used to buy money			
	ANS: B PTS: 1 DIF: LOC: Gains from trade, specialization and trade	Easy		Analytic Specialization and Exchange
78.	If I trade a ginger snap for a chocolate chip cookie a. barter b. comparative advantage c. absolute advantage d. privatization e. division of labor	e, I am engaging	in	
	ANS: A PTS: 1 DIF: LOC: Gains from trade, specialization and trade	Easy		Reflective Thinking Specialization and Exchange

79	 Money facilitates trade because a. it eliminates the need for specialization b. it prevents people from taking advantage of each other c. it serves as a medium of exchange d. division of labor allows money to be produced at a lower cost e. people do not benefit from barter unless money is used
	ANS: C PTS: 1 DIF: Moderate NAT: Analytic TOP: Specialization and Exchange
80	 Barter is a. illegal in the United States b. an efficient system of exchange c. most useful when there is much specialization and international trade d. only possible if money is used as a medium of exchange e. the direct exchange of goods, without the use of money
	ANS: E PTS: 1 DIF: Easy NAT: Analytic TOP: Specialization and Exchange
81	 A medium of exchange must be a. approved by the government b. socially acceptable in exchange for goods and services c. easy to reproduce d. used to eliminate specialization and the division of labor e. used when a system of barter exists
	ANS: B PTS: 1 DIF: Hard NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Specialization and Exchange
82	 Division of labor allows people to do tasks for which they have greater natural ability. a. True b. False
	ANS: A PTS: 1 DIF: Easy NAT: Analytic LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
83	 Which of the following provide the best evidence of specialization? a. a firm that produces a line of related products, such as eight kinds of breakfast cereal b. an architect who is willing to practice in only one geographic area c. a physician that practices in a specialty area such as cardiology or orthopedic surgery d. a family that eats at Wendy's every Thursday night e. a retailer that sells goods but provides no services
	ANS: C PTS: 1 DIF: Moderate NAT: Reflective Thinking TOP: Specialization and Exchange
84	 The division of labor a. allows more people to be employed b. allows tasks to be performed more efficiently c. makes people happier on the job d. means that less management is required e. means that less equipment will be used
	ANS: B PTS: 1 DIF: Easy NAT: Reflective Thinking

LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization 85. The division of labor facilitates productivity increases for all of the following reasons, except one. Which is the exception? a. It allows people to do those tasks for which they have the greatest natural ability. b. Workers get better at tasks, the more they repeat them. c. The more experience workers gain by specializing in a task, the more likely they will enjoy that task. d. More sophisticated production techniques are introduced. e. The division of labor often permits the introduction of labor-saving machinery. ANS: C PTS: 1 DIF: Easy NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization 86. Which of the following is not a gain from division of labor? a. Workers' abilities are matched to tasks. b. Workers gain experience from the repetition of the tasks. c. Workers save time by not moving to different tasks. d. Workers' morale increases as tasks become more specialized. e. The introduction of labor-saving machinery is possible. ANS: D PTS: 1 DIF: Moderate NAT: Reflective Thinking LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization 87. Division of labor increases productivity because a. tasks can be assigned according to individual tastes and abilities b. workers who repeatedly perform the same tasks become bored c. each worker must learn each of the numerous tasks in the total production process d. specialization of labor allows for the introduction of cheaper, less sophisticated production e. managers can force workers to produce goods that are valued more highly than the costs of producing them. ANS: A PTS: 1 DIF: Moderate NAT: Analytic LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization 88. Because of specialization and comparative advantage, most people a. consume only what they produce themselves b. consume the products produced by their family and friends c. consume the products of many other specialists d. do not use money as a medium of exchange e. share whatever they produce ANS: C PTS: 1 DIF: Easy NAT: Analytic LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization 89. Fast food is faster and cheaper than a similar meal you could prepare for yourself. Which of the following does not explain that fact? a. meal preparation has been divided into many separate tasks

b. larger-scale production allows the introduction of more efficient machines

	e. workers are more productive when they are being paid
	ANS: E PTS: 1 DIF: Easy NAT: Reflective Think LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
90.	The "division of labor" refers to a. discrimination in labor markets b. separating a job into smaller tasks completed by different people c. one worker who divides his time among different jobs and duties d. defining a job according to the appropriate sex e. the fact that two 20-year-olds are more productive than one 40-year-old
	ANS: B PTS: 1 DIF: Easy NAT: Reflective Think LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
91.	Specialization of labor a. increases productivity without creating any problems b. reduces productivity, and is usually eliminated by business firms c. can create problems of boredom and repetitive motion injuries d. prevents the introduction of more sophisticated and efficient production techniques e. ignores individual preferences and natural abilities
	ANS: C PTS: 1 DIF: Easy NAT: Analytic LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
92.	In economics, specialization means a. producing something using only one type of resource, such as labor b. producing something using only one type of labor c. focusing efforts on a particular product or a single task d. producing only one unit of output e. producing something using only one unit of a variable resource
	ANS: C PTS: 1 DIF: Moderate NAT: Reflective Think LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
93.	Which of the following is an example of division of labor? a. an author writing a book one chapter at a time b. a firm trying to get rid of a labor union c. separating resources into four categories: land, labor, capital, and entrepreneurial abilit d. allocating revenue among a firm's resource suppliers e. dividing an assembly process into separate steps
	ANS: E PTS: 1 DIF: Moderate NAT: Reflective Think LOC: Gains from trade, specialization and trade TOP: Division of Labor and Gains from Specialization
