

CHAPTER 2

WORKING WITH THE TAX LAW

Instructor: The test items in both the print Test Bank and ExamView test-creation software are numbered by question type within each chapter. Thus, users of ExamView can more easily preview their selections using the printed Test Bank in the same numbering system.

Learning Objective, Level of Difficulty, Estimated Time to Completion, and the AACSB's and AICPA's Core Competencies for each test item are located within the item itself.

Question/ Problem	Topic	Status: Present Edition	Q/P in Prior Edition
	TRUE OR FALSE		
1	Rules of tax law	Unchanged	1
2	Weight of authority	Unchanged	2

- 22. Interpret the following citation: 64-1 USTC ¶9618, aff'd in 344 F. 2d 966.
 - a. A U.S. Tax Court Small Cases Division decision that was affirmed on appeal.
 - b. A U.S. Tax Court decision that was affirmed on appeal.
 - c. A U.S. District Court decision that was affirmed on appeal.
 - d. A U.S. Circuit Court of Appeals decision that was affirmed on appeal.
 - e. None of the above.

ANS: C

USTCs report decisions of the U.S. District Courts, Court of Federal Claims, Circuit Court of Appeals, and the Supreme Court. They do not report the decisions of the U.S. Tax Court. West's F. 2d series reports the decisions of the U.S. Claims Court (before October 1982) and the Circuit Courts of Appeal. They do not report the decisions of the U.S. Tax Court, U.S. District Courts, and the Supreme Court. In the light of these conditions, what are the possibilities.

- Choice a. is not possible, since there is no appeal from the Small Cases Division of the U.S. Tax Court.
- Choice b. is not possible because the USTC series does not contain the decision of the U.S. Tax Court.
- Choice d. is not possible since an appeal from the Circuit Court of Appeals would have been to the U.S. Supreme Court.

What the citation represents, therefore, is the affirmation of an appeal of a U.S. District Court decision (reported in the USTCs) by a Circuit Court of Appeals (reported in the F.2d series), or choice c.

1.	How can congressional committee reports be used by a tax researcher?
	ANS: Congressional committee reports often explain the provisions of proposed legislation and are a valuable source for ascertaining the intent of Congress. The intent of Congress is the key to interpreting new legislation by taxpayers, especially before Regulations are published.

2.	Why are some Code section numbers intentionally omitted from the <i>Internal Revenue Code?</i>
	ANS: Some Code section numbers are intentionally omitted from the <i>Internal Revenue Code</i> so that later changes in the law can be incorporated into the Code without disrupting its organization.

3.	Compare a determination letter with a letter ruling.
	ANS: Like letter rulings, determination letters are issued at the request of taxpayers and provide guidance on the tax law. Determination letters differ from letter rulings in that the issuing source of a determination letter is the Area Director rather than the National Office of the IRS. Also, determination letters usually involve completed (as opposed to proposed) transactions. Determination letters are not published and are made known only to the party making the request.

4.	Explain the function of Temporary Regulations.
	ANS: Sometimes the U.S. Treasury Department issues Temporary Regulations relating to matters where immediate guidance is important. These regulations are issued without the comment period required for Proposed Regulations. Temporary Regulations have the same authoritative value as Final Regulations and may be cited as precedents. Temporary Regulations also must be issued as Proposed Regulations and automatically expire within three years after the date of issuance. Temporary Regulations and the simultaneous Proposed Regulations carry more weight than traditional Proposed Regulations.

5. Explain the Golsen doctrine.

ANS:

Because the Tax Court is a national court, it decides cases from all parts of the country. For many years, the Tax Court followed a policy of deciding cases based on what it thought the result should be, even though its decision might be appealed to a U.S. Circuit Court of Appeals that had previously decided a similar case differently. A number of years ago this policy was changed in the *Golsen* decision. Now the Tax Court will decide a case as it feels the law should be applied *only* if the Circuit Court of Appeals of appropriate jurisdiction has not yet passed on the issue or has previously decided a similar case in accord with the Tax Court's decision. If the Circuit Court of Appeals of appropriate jurisdiction has previously held otherwise, the Tax Court will conform under the *Golsen* rule even though it disagrees with the holding.

6. Discuss the advantages and disadvantages of the Small Cases Division of the U.S. Tax Court.

ANS:

There is no appeal from the Small Cases Division. The jurisdiction of the Small Cases Division is limited to cases involving amounts of \$50,000 or less. The proceedings of the Small Cases Division are informal (e.g., no necessity for the taxpayer to be represented by a lawyer or other tax adviser). Special trial judges rather than Tax Court judges preside over these proceedings. The decisions of the Small Cases Division are not precedents for any other court decision and are not reviewable by any higher court. Proceedings can be more timely and less expensive in the Small Cases Division. Some of these cases can now be found on the U.S. Tax Court Internet Website.

7. How should a tax researcher view electronic tax research tools from a budget perspective?

ANS:

A paper tax library costs about \$20,000 to establish with an annual outlay of about \$5,000. For about \$300 a year, a tax CD with quarterly updates can provide a researcher a comprehensive tax source. An online system can be as much as \$200 per hour. Perhaps the best combination of electronic resources is to conduct day-to-day work on a CD system, and augment the CD search with online access when it is judged to be critical.
